VOLUME 8; ISSUE NOS 1–4

Cell Biochemistry and Function

ISSUE No. 1 JANUARY 1990

Lipid Peroxidation and Covalent Binding in the Early Functional Impairment of Liver Golgi Apparatus by Carbon Tetrachloride, G. Poli, D. Cottalasso, M. A. Pronzato, E. Chiarpotto, F. Biasi, F. P. Corongiu, U. M. Marinari, G. Nanni and M. U. Dianzani 1

Long-term Adaptive Response to Dietary Protein of Hexose Monophosphate Shunt Dehydrogenases in Rat Kidney Tubules, J. Peragón, F. Aranda, L. García-Salguero, A. M. Vargas and J. A. Lupiáñez 11

Sulfur-Containing Amino Acids that Increase Renal Glutathione Protect the Kidney Against Papillary Necrosis Induced by 2-Bromoethylamine, L. E. Thielemann, E. W. Oberhauser, G. Rosenblut, L. A. Videla and A. Valenzuela 19

Lack of Inhibition of Vasopressin-Stimulated Na^+K^+ATPase by Atrial Natriuretic Factor in the Rat Renal Medullary Thick Ascending Limb of Henle's Loop, J. A. Charlton and P. H. Baylis . . . 25

Studies of the Regulation of Renal Gluconeogenesis in Normal and P_i Depleted Proximal Tubule Cells, T. Nakagawa and P. J. Butterworth 31

Fructose-1, 6-Diphosphate as an *In Vitro* and *In Vivo* Anti-Alcohol Agent in the Rat, L. Galzigna, M. Bianchi, V. Rizzoli, R. Scuri, P. Giannetti and A. Paesano 39

Evidence of the Receptor Nature of the Binding Sites Induced in Tetrahymena by Insulin Treatment. A Quantitative Cytofluorimetric Technique for the Study of Binding Kinetics, P. Kovács and G. Csaba 49

Temporal Adaptation of Human Neutrophil Metabolic Responsiveness to the Peptide Formylmethionyl–Leucyl Phenylalanine: A Comparison Between Human Neutrophils and Granule-Depleted Neutrophil Cytoplasts, C. Dahlgren 57

The Inhibitory Effect of Neonatal Rat Smooth Muscle Cells and Elastic Extracellular Matrix on Development of the Newly Seeded Cell Population in Culture, J. Hausmann, J. Horáčková, J. Krausová and V. Verbitzki 65

Age-Related Changes in Hyaluronate Uptake by Cultured Fibroblasts, R. Evangelisti, G. Stabellini and P. Carinci 71

Erratum 75

Book Reviews 77

ISSUE No. 2 APRIL 1990

Identification of a Nuclear Antigen with Molecular Weight of 48 000 Differentially Expressed in Tumour and Normal Cells, W. M. Krajewska, A. Lipińska, M. Marszalek, Z. Kiliańska, Z. Wojtkowiak and L. Klyszejko-Stefanowicz. 79

Suppressive Effect of Adrenalectomy on Growth of L1210 Leukemic Cells in Ascites, K. Kimura and Y. Sakamoto 91

4-Hydroxynonenal Interacts with Tubulin by Reacting with its Functional -SH Groups, A. Olivero, A. Miglietta, E. Gadoni and L. Gabriel. 99

Subcellular Localization of Recently-Absorbed Iron in Mouse Duodenal Enterocytes: Identification of a Basolateral Membrane Iron-binding Site, S. Snape, R. J. Simpson and T. J. Peters 107

Intracellular Assembly of Newly Synthesized Canine Cardiac Myosins, Y. Seko, S. Naito, K. Imataka, J. Fujii, P. K. Nakane, F. Takaku and Y. Yazaki 117

Peculiar Ultraviolet Absorbing Moieties of Human Osteoarthritic Cartilage. J. Chayen, L. Bitensky and A. M. Nahir 131

Book Reviews 137

ISSUE No. 3 JULY 1990

Postnatal Changes of Cathepsin D Activity in Rat Liver and Brain, A. Dionyssiou-Asteriou . . . 141

Influence of 4-Hydroxynonenal on Chemiluminescence Production by Unstimulated and Opsonized Zymosan-Stimulated Human Neutrophils, C. di Mauro, G. Cavalli, M. C. Amprimo, L. Paradisi, G. Scano, M. Curzio and M. U. Dianzani 147

Reduced Oxidative Activity of Circulating Neutrophils in Patients After Myocardial Infarction, C. Guarnieri, G. Melandri, I. Caldarera, M. Scheda, A. Ligabue, S. Guizzardi and A. Branzi . . 157

The Activation of Phosphatidylinositol-Specific Phospholipase C by Insulin in Mammary Epithelial Cells of Lactating Mouse, A. Yoshimoto, K. Nakanishi, T. Anzai and S. Komine 163

ATP Modifications in Hexokinase Deficient Fibroblasts Exposed to Nutrient Shifts, L. Chiarantini, E. Vittoria and M. Magnani 167

Extracellular Sodium is Required for Methacholine-Induced Secretion of Mucus Glycoconjugates from Canine Tracheal Explants, C. Barsigian and E. J. Barbieri 171

Acid-Soluble Purine and Pyrimidine Derivatives of Growing, Encysting and Encystment-Inhibited Amoebae, A. Cumaraswamy and H. R. Henney, Jr 177

Book Reviews 189

ISSUE No. 4 OCTOBER 1990

Effects of Inositol 1,4,5-Trisphosphate on Calcium Release from the Endoplasmic Reticulum and Golgi Apparatus in Mouse Mammary Epithelial Cells: A Comparison During Pregnancy and Lactation, A. Yoshimoto, K. Nakanishi, T. Anzai and S. Komine 191

Methotrexate: Studies on Cellular Metabolism. IV. Effect on the Mitochondrial Oxidation of Cytosolic-Reducing Equivalents in HeLa Cells, Ma. T. C. C. Bastos, Ma. B. M. Oliveira, A. P. Campello and Ma. L. W. Klüppel 199

Impairment of ATP-Linked Reactions in Mitochondria Isolated from Skeletal Muscle of Halothane-Sensitive Pigs, S. Ayoub, G. Monin, E. Rock and A. Younes 205

Modulation of Membrane Phenotype, Matrix Adhesion and Microinvasiveness of Metastatic Tumour Cells by HUdR,. J. Timár, G. Pogány, M. Balázs, J. Szöllösi, A. Ladányi, J. Oláh, F. Timár, K. Lapis and A. Jeney 211

Amelioration by Menadione of the Experimental Chronic Immune Arthritis in the Rabbit, A. A. Pitsillides, S. M. Blake, L. E. Glynn, L. Bitensky and J. Chayen 221

Balancing of Energy-Consuming Processes of Rat Hepatocytes, W. Schneider, W. Siems and T. Grune 227

Carboxylesterase Activities during the Establishment of the Procambium and Procortex in Embryos of *Pisum sativum* L., D. F. Carmignac, P. B. Gahan and Z. Loukopoulou 233

Effects of Vanadate on 6-Phosphofructo 2-Kinase Activity and Fructose 2,6-Bisphosphate Levels in Cultured Rat Hepatocytes, M. Miralpeix, N. R. Katz and R. Bartrons 237
